

# SAFETY DATA SHEET

according Regulation EC No. 1907/2006 (REACH), Regulation EC No. 1272/2008 (CLP)  
and Commission Regulation EU No. 2020/878

## ECOSTRIPE ATTRACTIVE

Page:  
- 1/11 -

Date of compilation/revision: 15. 1. 2021      version: 2.0      Replaces:      version 1.2

### SECTION 1: IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

#### 1.1 Product identifier

Product name:	<b>ECOSTRIPE ATTRACTIVE</b>
Other means of identification:	not set
REACH registration number:	not required, the product is a mixture, not a compound

#### 1.2 Relevant identified uses of the substance or mixture and uses advised against

Identified uses:	adhesive paper strip for trapping of flying insects (mainly houseflies)
Uses advised against:	not set

#### 1.3 Details of the supplier of the safety data sheet

Distributor:	Papírna Moudrý s.r.o. Nádražní 56 667 01 Židlochovice Czech Republic tel.: +420 547 231 064 e-mail: <a href="mailto:moudry@volny.cz">moudry@volny.cz</a> web: <a href="http://www.moudry-cz.com">www.moudry-cz.com</a>
--------------	------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Competent person responsible for the Safety Data Sheet: PharmDr. Vladimír Věgh, PHARMIS, [info@pharmis.sk](mailto:info@pharmis.sk)

#### 1.4 Emergency telephone number

Toxicology Information Centre, Na Bojišti 1, Praha; 24-h non-stop: +420-224919293 / +420-224915402.  
Information only on health risks: acute intoxications of people / animals.

### SECTION 2: HAZARDS IDENTIFICATION

General classification of the mixture: the mixture **is not** classified as hazardous in compliance with the Regulation (EC) No 1272/2008.

#### 2.1 Classification of the substance or mixture

Classification in accordance with 1272/2008/EC:	The mixture is not classified as hazardous.
-------------------------------------------------	---------------------------------------------

#### 2.2 Label elements

Contains:	not required
Hazard pictograms:	not required
Signal word:	not required
Hazard statements:	not required
Supplemental hazard information:	not required
Supplemental label elements for certain mixtures:	not required
Precautionary statements:	not required
<b>Other required labeling:</b>	not required

#### 2.3 Other hazards

Results of PBT and vPvB assessment: The substances in the mixture do not meet the PBT/vPvB criteria according to REACH, Annex XIII.

No substances presented in the mixture at a concentration  $\geq 0.1$  % by weight are included in the Candidate List of SVHC.

# SAFETY DATA SHEET

according Regulation EC No. 1907/2006 (REACH), Regulation EC No. 1272/2008 (CLP) and Commission Regulation EU No. 2020/878

## ECOSTRIPE ATTRACTIVE

Page:  
- 2/11 -

Date of compilation/revision	15. 1. 2021	version: 2.0	Replaces:	version 1.2
------------------------------	-------------	--------------	-----------	-------------

No substances presented in the mixture at a concentration  $\geq 0.1$  % by weight are included in the list established in accordance with Article 59(1) for having endocrine disrupting properties; nor are they identified as having endocrine disrupting properties in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605.

Important health effects:	The mixture is not classified as hazardous for human health. No adverse effects are expected under normal condition of use. Prolonged or repeated skin contact may cause removal of natural fat from the skin resulting and mild irritation. Based on viscosity the mixture does not pose any hazard due to aspiration.
---------------------------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Important environmental effects:	The mixture is not classified as hazardous for the environment. No adverse effects in the environment are expected under normal condition of use.
----------------------------------	---------------------------------------------------------------------------------------------------------------------------------------------------

Important physico-chemical effects:	The mixture is not classified as hazardous for its physico-chemical properties.
-------------------------------------	---------------------------------------------------------------------------------

### SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

Mixture of adhesives, non-biocidal attractants and auxiliary compounds on paper carrier

**3.1 Substances**  
does not apply

**3.2 Mixtures**  
Substances presenting a health or environmental hazard within the meaning of the Regulation (EC) No. 1272/2008, assigned a Community/national workplace exposure limit, classified as PBT/vPvB or included in the Candidate List of SVHC, identified as having endocrine disruptive properties: none

Substance <i>REACH Registration number</i>	Content (% w/w)	EC Number CAS Number Index Number	Classification 1272/2008/EC*	Exposure limits
-	-	-	-	-

\* For full wording of used classification abbreviations and Hazard Statements (H-phrases) see Section 16.

#### Other compounds

Other substances not presenting a health or environmental hazard within the meaning of the Regulation (EC) No. 1272/2008, without assigned a Community workplace exposure limit, not classified as PBT/vPvB and not included in the Candidate List:

Substance <i>REACH Registration number</i>	Content (% w/w)	EC Number CAS Number Index Number	Classification 1272/2008/EC*	Exposure limits
S-650 / SN-650 / PR-6 Distillates (petroleum), hydrotreated heavy paraffinic Baseoil - unspecified [A complex combination of hydrocarbons obtained by treating a petroleum fraction with hydrogen in the presence of a catalyst. It consists of hydrocarbons having carbon numbers predominantly in the range of C20 through C50 and produces a finished oil of at least 100 SUS at 100 °F (19cSt at 40 °C). It contains a relatively large proportion of saturated hydrocarbons.] <i>REACH No. 01-2119484627-25-XXXX</i>	< 100	265-157-1 64742-54-7 649-467-00-8	the substance is not classified as hazardous**	national see 8.1

\*\* The classification as a carcinogen need not apply as the substance contains less than 3 % DMSO extract as measured by IP 346 (Note L, 1272/2008/ES)

# SAFETY DATA SHEET

according Regulation EC No. 1907/2006 (REACH), Regulation EC No. 1272/2008 (CLP) and Commission Regulation EU No. 2020/878

## ECOSTRIPE ATTRACTIVE

Date of compilation/revision: 15. 1. 2021      version: 2.0      Replaces:      version 1.2

### SECTION 4: FIRST AID MEASURES

#### 4.1 Description of first aid measures

Observe all user considerations and safety measures stated on the packaging. No adverse health effects are expected under normal conditions of use. In case of any unexpected accident, health problem or uncertainty seek medical attention and provide information from this Safety Data Sheet. Unconscious persons place in the stabilized position and observe the breathing. Never give any fluids to unconscious persons.

Inhalation: No adverse health effects are expected under normal conditions of use.

Skin contact: Remove all soiled or stained clothing. Wash the affected area immediately and repeatedly with soap and water. Use appropriate regenerating cream. Seek medical advice if the skin irritation persists.

Eye contact: As of physical status exposure is not expected. In case of eventual contact keep eyelids open and rinse immediately and repeatedly with copious amount of water for at least 5 - 10 minutes. Remove contact lenses, if present and easy to do. Seek medical advice if the eye irritation persists (preferably an ophthalmologist).

Ingestion: As of physical status exposure is not expected. In case of intended ingestion rinse mouth with water and allow affected person to drink some water or milk (however, only if the person is conscious). **Do not induce vomiting!** In case of spontaneous vomiting avoid aspiration of the vomits. In case of persistent problems get medical attention and show this Safety Data Sheet or product label!

#### 4.2 Most important symptoms and effects, both acute and delayed

The mixture is not classified as hazardous for human health. No adverse effects are expected under normal condition of use. Direct contact with eye can cause mild and transient irritation. Prolonged or repeated skin contact may cause mild irritation. Removal of adhered product from the skin can cause hair removal.

#### 4.3 Indication of any immediate medical attention and special treatment needed

No specific therapy known. Use supporting and symptomatic treatment.

### SECTION 5: FIREFIGHTING MEASURES

#### 5.1 Extinguishing media

Suitable extinguishing media: water spray, alcohol resistant foam, dry-powder, carbon dioxide or other extinguishing gases

Unsuitable extinguishing media: direct water stream, may spread the fire

#### 5.2 Special hazards arising from the substance or mixture

Flammable. Incomplete combustion and thermolysis may produce toxic, irritating and flammable decomposition products (such as carbon monoxide, carbon dioxide, soot, aldehydes and other products of organic compounds decomposition). Do not inhale smokes.

#### 5.3 Advice for fire-fighters

Fire-fighters should always use standard protective equipment, helmets and in enclosed spaces, self-contained breathing apparatus (SCBA) - risk of irritating, toxic or flammable decomposition products. Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. Use water spray to cool fire exposed surfaces and to protect personnel. If possible, try to move the containers from the fire vicinity. Prevent run-off from fire control or dilution from entering streams, sewers or drinking water supply.

### SECTION 6: ACCIDENTAL RELEASE MEASURES

#### 6.1 Personal precautions, protective equipment and emergency procedures

No special precautions are needed. Observe all user considerations and safety measures. Avoid contact with skin, eyes and mucous membranes. All unprotected persons should be restraint. See Section 8 for advice on the minimum requirements for personal protective equipment. Ensure adequate ventilation in closed areas. Additional protective measures may be necessary, depending on the specific circumstances and/or the expert judgment of the emergency responders.

# SAFETY DATA SHEET

according Regulation EC No. 1907/2006 (REACH), Regulation EC No. 1272/2008 (CLP) and Commission Regulation EU No. 2020/878

## ECOSTRIPE ATTRACTIVE

Page:  
- 4/11 -

Date of compilation/revision: 15. 1. 2021      version: 2.0      Replaces:      version 1.2

- 6.2 Environmental precautions**  
No special precautions are needed. Avoid entering soil, surface- and ground-waters, drains, cellars or other closed rooms. In case of serious leakage inform appropriate authorities responsible for environmental protection.
- 6.3 Methods and materials for containment and cleaning up**  
No special precautions are needed. Collect mechanically. Damaged products dispose according to valid legislation; send to wastes treatment facility. See Section 13 for appropriate procedures. Areas contaminated with the glue clean up mechanically; for final cleaning appropriate organic solvent (such as gasoline or bio-naphtha) can be used. Wash all areas with large amount of water and appropriate detergent.
- 6.4 Reference to other sections**  
Adhere to instructions in the section 8 and 13.

### SECTION 7: HANDLING AND STORAGE

- 7.1 Precautions for safe handling**  
Avoid contact of the adhesive parts with skin, eyes and mucous membranes. See Section 8 for advice on the minimum requirements for personal protective equipment. Observe all user considerations, safety measures and exposure limits. Do not eat, drink or smoke when manipulating with the product. For continuous work (e.g. packaging) ensure adequate ventilation.
- 7.2 Conditions for safe storage, including any incompatibilities**  
Store in original packages. Store in dry, banded spaces, with adequate ventilation. Keep away from direct sunlight and, heat sources and ignition sources. Recommended storage temperatures: -20°C to +40°C. Keep out of the reach of children. Keep away from food, beverages and forage. Keep away from acids and oxidative compounds.
- 7.3 Specific end uses**  
not specified

### SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

- 8.1 Control parameters**

	water - intermittent release	-
	sediment - fresh water	-
	sediment - marine water	-
	sewage treatment plants (STP)	-
	soil	-
	oral (secondary poisoning)	9,33 mg/kg (food)

## 8.2 Exposure controls

### Appropriate engineering controls:

No special precautions are needed. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Discard contaminated clothing and footwear that cannot be cleaned. Personal protective equipment selections vary based on potential exposure conditions such as applications, handling practices, concentration and ventilation. Information on the selection of protective equipment for use with this material, as provided below, is based upon intended, normal usage.

### Individual protection measures, such as personal protective equipment:

#### a) Eye / face protection

Not needed under normal conditions of use.

#### b) Skin protection:

Not needed under normal conditions of use. For long-time work with the risk of direct contact chemical-resistant protective gloves are recommended. If contact with forearms is likely, wear gauntlet-style gloves. CEN standards EN 420 and EN 374 provide general requirements and lists of glove types. Recommended material: fluorinated rubber, nitril-, butyl-rubber, PVC, latex. Short-term contact: protection index 2, breakthrough time min. 30 min., long term - contact: protection index 2, breakthrough time min. 30 min. (EN 374-1). Do not wear rings, watches or other items that should retain the mixture on the skin.

Note: The selection of a specific glove for a particular application and duration of use in a workplace should also take into account all relevant workplace factors such as, but not limited to: Other chemicals which may be handled, physical requirements (cut/puncture protection, dexterity, thermal protection), potential body reactions to glove materials, as well as the instructions/specifications provided by the glove supplier. Inspect and immediately replace worn or damaged gloves.

#### c) Respiratory protection:

Not usually required under appropriate ventilation or exhaustion at the workplace.

#### d) Thermal hazards:

No such risk when normally used.

### Environmental exposure controls:

Comply with applicable environmental regulations limiting discharge to air, water and soil. Protect the environment by applying appropriate control measures to prevent or limit emissions. All storage and manipulation areas have to be equipped for the sanitation of possible leakage. See information in sections 6 and 12.

## SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

### 9.1 Information on basic physical and chemical properties

Properties	value	method / condition
Physical state:	very viscous liquid on paper carrier	20°C
Colour:	dark, green and brown	-
Odour:	weak, non-specific	-
Melting point/freezing point:	information not available	-
Boiling point/range or initial boiling point:	information not available	-
Flammability:	information not available	-
Upper/lower flammability or explosive limits:	information not available	-
Flash point:	> 250°C	-
Auto-ignition temperature:	information not available	-
Decomposition temperature:	information not available	-
pH:	information not available	-
Kinematic viscosity:	information not available	-
Solubility:	insoluble in water	water, 20°C
Partition coefficient: n-octanol/water:	information not available	-
Vapour pressure:	information not available	-
Density and/or relative density:	0,90 – 0,915 g/cm <sup>3</sup> (glue)	20°C
Relative vapour density:	information not available	-
Particle characteristics:	information not available	-

### 9.2 Other information

Dynamic viscosity:	25 000 mPa.s (glue)	60°C
--------------------	---------------------	------

## SECTION 10: STABILITY AND REACTIVITY

### 10.1 Reactivity

Not reactive under normal conditions of storage and use.

### 10.2 Chemical stability

Mixture is chemically stable under normal conditions of storage and use. Overheating may cause thermal decomposition.

### 10.3 Possibility of hazardous reactions

Hazardous exothermic reactions possible with strong oxidative compounds.

### 10.4 Conditions to avoid

Stable under normal conditions. Keep away from direct sunlight, heat sources and ignition sources.

### 10.5 Incompatible materials

None known.

# SAFETY DATA SHEET

according Regulation EC No. 1907/2006 (REACH), Regulation EC No. 1272/2008 (CLP) and Commission Regulation EU No. 2020/878

- 7/11 -

Date of compilation/revision: 15. 1. 2021      version: 2.0      Replaces:      version 1.2

### 10.6 Hazardous decomposition products

Material does not decompose at ambient temperatures. Incomplete combustion and thermolysis may produce toxic, irritating and flammable decomposition products (such as carbon monoxide, carbon dioxide, soot, aldehydes and other products of organic compounds decomposition).

## SECTION 11: TOXICOLOGICAL INFORMATION

### 11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

No adverse health effects are expected under normal conditions of use.

- a) *Acute toxicity*  
Based on available data, the classification criteria are not met. No toxicology data for the mixture. Based on the composition the mixture has low acute toxicity - no adverse health effects are expected under normal conditions of use.
- b) *Skin corrosion/irritation*  
Based on available data, the classification criteria are not met. Prolonged or repeated skin contact may cause mild irritation. Removal of adhered product from the skin can cause hair removal. However, these effects are not reasons for classification.
- c) *Serious eye damage/irritation*  
Based on available data, the classification criteria are not met. Direct contact with eye can cause mild and transient irritation. However, these effects are not reasons for classification.
- d) *Respiratory or skin sensitisation*  
Based on available data, the classification criteria are not met. Compounds have no sensitizing potential.
- e) *Germ cell mutagenicity*  
Based on available data, the classification criteria are not met. Compounds have no potential for mutagenicity.
- f) *Carcinogenicity*  
Based on available data, the classification criteria are not met. Compounds have no potential for carcinogenicity.
- g) *Reproductive toxicity*  
Based on available data, the classification criteria are not met. Compounds have no potential for reproductive toxicity.
- h) *STOT-single exposure*  
Based on available data, the classification criteria are not met.
- i) *STOT-repeated exposure*  
Based on available data, the classification criteria are not met. Based on composition and applicable amounts, not expected to cause specific damage from prolonged or repeated exposure upon normal conditions of use.
- j) *Aspiration hazard*  
Based on available data, the classification criteria are not met.

### 11.2 Information on other hazards

#### *Endocrine disrupting properties*

No substances presented in the mixture at a concentration  $\geq 0.1$  % by weight are included in the list established in accordance with Article 59(1) for having endocrine disrupting properties; nor are they identified as having endocrine disrupting properties in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605.

#### *Other information*

Not available.

## SECTION 12: ECOLOGICAL INFORMATION

The mixture is not classified as hazardous for the environment.

### 12.1 Toxicity

Not measured for the mixture. Based on the composition the mixture is not classified as hazardous for the environment. No adverse effects are expected under normal condition of use.

### 12.2 Persistence and degradability

No data for the mixture. Components are only slowly biodegradable.

# SAFETY DATA SHEET

### 15.2 Chemical safety assessment

Chemical safety assessment not carried yet

## SECTION 16: OTHER INFORMATION

a) *Changes made to the previous version of the safety data sheet*

Actualization of relevant legislation in the Section 15.

b) *Key or legend to abbreviations and acronyms used in the safety data sheet*

Exp. lim.	Exposure limit
NPEL	The highest permissible exposure limit ( <i>Slovak Republic</i> )
PEL	Permissible exposure limit (short-term) ( <i>Czech Republic</i> )
NPEL-P	The highest permissible exposure limit (long-term) ( <i>Czech Republic</i> )
OEL	Occupational exposure limit
ACGIH	American Conference of Industrial Hygienists
PBT	Substances persistent, bioaccumulative and toxic
vPvB	Substances very persistent and very bioaccumulative
VOC	Volatile organic compound
DNEL	Derived No Effect Level
PNEC	Predicted No Effect Concentration
LD50	Median lethal Dose
LC50	Median lethal concentration
EC50	Half maximal effective concentration
IC50	Half maximal inhibitory concentration
ADR	European Agreement concerning the International Carriage of Dangerous Goods by Road
RID	International Rule for Transport of Dangerous Substances by Railway
IMDG	International Maritime Dangerous Goods Code
ICAO	International Civil Aviation Organization
IATA	International Air Transport Association

c) *Key literature references and sources for data*

Original composition from the manufacturer and Safety data sheets of used compounds.

d) *Methods of evaluating information used for the purpose of classification*

The mixture was classified by expert judgment and conventional calculations methods in accordance with the Regulation EC No. 1272/2008 (CLP).

e) *Full wording of used Hazard Statements (H-phrases)*

not used

f) *Advice on any training appropriate for workers*

Not applicable for consumer. Before handling, storing or using the present substance for the first time, employees must be informed - common occupational safety training. SAFETY DATA SHEET should always be available at hand.

g) *Other information*

This Safety Data Sheet is compiled in accordance with the Regulation EC No. 1907/2006 (REACH), Regulation EC No. 1272/2008 (CLP) and Commission Regulation EU No. 2020/878; and contains information on safety use, occupational health protection, and environmental protection. The information contained herein is given in good faith and is accurate to the best of knowledge at the date indicated above. This particular information apply on the product as supplied and may not be valid in mixtures with other substances. If used for other purposes as identified in this SDS, the distributor is not liable for any damage.
