### SECTION 1: IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

<b>1.1</b>	<b>Product identifier</b>	
	Product name:	<b>ARBOBAND/FLORABAND</b>
	Registration number:	not required, the product is a mixture, not a compound
	Other means of identification:	not set
<b>1.2</b>	<b>Relevant identified uses of the substance or mixture and uses advised against</b>	
	Identified uses:	adhesive board for the protection of plants against insects
	Uses advised against:	not set
<b>1.3</b>	<b>Details of the supplier of the safety data sheet</b>	
	Distributor:	Papírna Moudrý s.r.o. Nádražní 56 667 01 Židlochovice Czech Republic tel.: +420 547 231 064 e-mail: moudry@volny.cz web: <a href="http://www.moudry-cz.com">www.moudry-cz.com</a>
	Competent person responsible for the Safety Data Sheet: PharmDr. Vladimír Végh, PHARMIS, info@pharmis.sk	
<b>1.4</b>	<b>Emergency telephone number</b>	
	Toxicology Information Centre, Na Bojišti 1, Praha; 24-h non-stop: +420-224919293 / +420-224915402. Information only on health risks: acute intoxications of people / animals.	

### SECTION 2: HAZARDS IDENTIFICATION

General classification of the mixture: the mixture **is not** classified as hazardous in compliance with Regulation (EC) No 1907/2006 and Regulation (EC) No 1272/2008.

	Important health effects:	The mixture is not classified as hazardous for human health. No adverse effects are expected under normal condition of use. Direct contact with eye can cause mild and transient irritation. Prolonged or repeated skin contact may cause removal of natural fat from the skin resulting and mild irritation. Ingestion of large amount may lead to stomachache, vomiting, diarrhea or other gastrointestinal problems.		
	Important environmental effects:	The mixture is not classified as hazardous for the environment. No adverse effects are expected under normal condition of use.		
<b>2.1</b>	<b>Classification of the substance or mixture</b>			
	Classification in accordance with 1272/2008/EC:	The mixture is not classified as hazardous.		
<b>2.2</b>	<b>Label elements</b>			
	Contains:	not required		
	Hazard pictograms:	not required		
	Signal word:	not required		
	Hazard statements:	not required		
	Supplemental hazard information:	not required		

# SAFETY DATA SHEET

according Regulation EC No. 1907/2006 (REACH), Regulation EC No. 1272/2008 (CLP)  
and Commission Regulation EU No. 2015/830

## ARBOBAND

Page:  
- 2/10 -

Date of compilation/revision	04.01. 2018	Version:	1.1	Replace:	-1.0
------------------------------	-------------	----------	-----	----------	------

Supplemental label elements for certain mixtures:	not required
Precautionary statements:	not required
Other required labeling:	not required

- 2.3 Other hazards**  
Results of PBT and vPvB assessment: The substances in the mixture do not meet the PBT/vPvB criteria according to REACH, annex XIII; the substances in the mixture are not included in the Candidate List of SVHC.

### SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

Mixture of polyisobutylene adhesives and auxiliary compounds on a carrier.

- 3.1 Substances**  
does not apply

- 3.2 Mixtures**  
Substances presenting a health or environmental hazard within the meaning of the Regulation (EC) No. 1272/2008, assigned a Community/national workplace exposure limit, classified as PBT/vPvB or included in the Candidate List: none

Substance <i>REACH Registration number</i>	Content (% w/w)	EC Number CAS Number Index Number	Classification 1272/2008/EC*	Exposure limits
-	-	-	-	-

\* For full wording of used classification abbreviations and Hazard Statements (H-phrases) see Section 16.

### SECTION 4: FIRST AID MEASURES

- 4.1 Description of first aid measures**  
Observe all user considerations and safety measures stated on the packaging. No adverse health effects are expected under normal conditions of use. In case of any unexpected accident, health problem or uncertainty seek medical attention and provide information from this Safety Data Sheet. Unconscious persons place in the stabilized position and observe the breathing. Never give any fluids to unconscious persons.
- |               |  |
|---------------|--|
| Inhalation:   | No adverse health effects are expected under normal conditions of use. As of physical status of the final mixture this type of exposure is not expected  |
| Skin contact: | Remove all soiled or stained clothing. Wash the affected area immediately and repeatedly with soap and water. Use appropriate regenerating cream. Seek medical advice if the skin irritation persists.   |
| Eye contact:  | As of physical status exposure is not expected. In case of eventual contact keep eyelids open and rinse immediately and repeatedly with copious amount of water for at least 5 - 10 minutes. Remove contact lenses, if present and easy to do. Seek medical advice if the eye irritation persists (preferably an ophthalmologist).   |
| Ingestion:    | As of physical status exposure is not expected. In case of intended ingestion rinse mouth with water and allow affected person to drink some water or milk (however, only if the person is conscious). <b>Do not induce vomiting!</b> In case of spontaneous vomiting avoid aspiration of the vomits. In case of persistent problems get medical attention and show this Safety Data Sheet or product label! |
- 4.2 Most important symptoms and effects, both acute and delayed**  
The mixture is not classified as hazardous for human health. No adverse effects are expected under normal condition of use. Direct contact with eye can cause mild and transient irritation. Prolonged or repeated skin contact may cause removal of natural fat from the skin resulting and mild irritation. Removal of adhered product from the skin can cause hair removal.

# SAFETY DATA SHEET

according Regulation EC No. 1907/2006 (REACH), Regulation EC No. 1272/2008 (CLP) and Commission Regulation EU No. 2015/830

## ARBOBAND

Page:  
- 3/10 -

Date of compilation/revision	04.01. 2018	Version:	1.1	Replace:	-1.0
------------------------------	-------------	----------	-----	----------	------

**4.3 Indication of any immediate medical attention and special treatment needed**  
No specific therapy known. Use supporting and symptomatic treatment. Be very careful in case of vomiting or gastric lavage.

### SECTION 5: FIREFIGHTING MEASURES

- 5.1 Extinguishing media**
- |                                 |  |
|---------------------------------|--|
| Suitable extinguishing media:   | water spray, alcohol resistant foam, dry-powder, carbon dioxide or other extinguishing gases |
| Unsuitable extinguishing media: | direct water stream, may spread the fire   |
- 5.2 Special hazards arising from the substance or mixture**  
Incomplete combustion and thermolysis may produce toxic, irritating and flammable decomposition products (such as carbon monoxide, carbon dioxide, soot, aldehydes and other products of organic compounds decomposition). Do not inhale smokes. Tightly closed containers may explode when heated.
- 5.3 Advice for fire-fighters**  
Fire-fighters should always use standard protective equipment, helmets and in enclosed spaces, self-contained breathing apparatus (SCBA) - risk of irritating, toxic or flammable decomposition products. Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. Use water spray to cool fire exposed surfaces and to protect personnel. If possible, try to move the containers from the fire vicinity. Prevent run-off from fire control or dilution from entering streams, sewers or drinking water supply.

### SECTION 6: ACCIDENTAL RELEASE MEASURES

- 6.1 Personal precautions, protective equipment and emergency procedures**  
Observe all user considerations and safety measures. Avoid contact with skin, eyes and mucous membranes. All unprotected persons should be restraint. See Section 8 for advice on the minimum requirements for personal protective equipment. Ensure adequate ventilation in closed areas. Remove all sources of ignition (also all sources of static electric discharges). Use only spark-proof equipment. Do not manipulate with fire, objects with high temperature and flammable materials. Additional protective measures may be necessary, depending on the specific circumstances and/or the expert judgment of the emergency responders.
- 6.2 Environmental precautions**  
Stop leak if you can do so without risk. Avoid entering soil, surface- and ground-waters, drains, cellars or other closed rooms. For aquatic environments: use appropriate floating barrages and adsorbents. In case of serious leakage inform appropriate authorities responsible for environmental protection.  
*Note: the above mentioned precautions apply only for accidental release; not applicable for appropriate use.*
- 6.3 Methods and materials for containment and cleaning up**  
Collect mechanically and soak up the rests with inert absorbent material (sand, diatomite, kaolin, vapex...); put in appropriately labeled containers with a lid. Remove all sources of ignition (also all sources of static electric discharges). Use only spark-proof equipment. Do not manipulate with fire, objects with high temperature and flammable materials. Dispose according to valid legislation; send to wastes treatment facility. See Section 13 for appropriate procedures. Areas contaminated with the glue clean up mechanically; for final cleaning appropriate organic solvent (such as gasoline or bio-naphtha) can be used. Wash all areas with large amount of water and appropriate detergent. Contaminated water should not enter drains, surface- and ground-waters, dispose as dangerous waste.
- 6.4 Reference to other sections**  
Adhere to instructions in the section 8 and 13.

### SECTION 7: HANDLING AND STORAGE

- 7.1 Precautions for safe handling**  
Observe all user considerations, safety measures and exposure limits. Avoid contact with skin, eyes and mucous membranes. See Section 8 for advice on the minimum requirements for personal protective equipment. Manipulate carefully to avoid accidental leak. Do not eat, drink or smoke when manipulating with the product. Use only with adequate ventilation. Remove all sources of ignition, do not manipulate in proximity of fire, objects with high temperature and flammable materials.

- 4/10 -

Date of compilation/revision: 04.01. 2018    Version: 1.1    Replace: -1.0

### 7.2 Conditions for safe storage, including any incompatibilities

Store in tightly closed original packages or in appropriately labeled substitute containers. Store in dry, banded, cold and dark spaces, with the ventilation at the floor level. Avoid freezing. Keep away from direct sunlight and, heat sources and ignition sources. Recommended storage temperature: -20 to +40°C. Keep out of the reach of children. Keep away from food, beverages and forage.

### 7.3 Specific end uses

not specified

## SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

### 8.1 Control parameters

Exposure limits (Czech Republic, Government Regulation No. 361/2007 Coll.):

CAS	Substance name	NPEL
-	-	-

Indicative biological limits: not set

Indicative occupational exposure limit ES (Directives 2000/39/EC, 2006/15/EC, 2009/161/EC and 2017/164/EC): not set

CAS	Substance name	OEL
-	-	-

Other recommended values: not set

CAS	Substance name	OEL - equivalents
-	-	-

DNEL: not set

PNEC: not set

### 8.2 Exposure controls

#### Appropriate engineering controls:

Avoid contact with skin, eyes and mucous membranes. Ensure adequate ventilation. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Discard contaminated clothing and footwear that cannot be cleaned. Personal protective equipment selections vary based on potential exposure conditions such as applications, handling practices, concentration and ventilation. Information on the selection of protective equipment for use with this material, as provided below, is based upon intended, normal usage.

#### Individual protection measures, such as personal protective equipment:

#### a) Eye / face protection

Not needed under normal conditions of use. Avoid contact with eyes. If specific usage involves possibility of eye contact (filling, emergency procedures), use of safety glasses with side shields (EN 166) is recommended.

#### b) Skin protection:

Chemical-resistant protective gloves are recommended. If contact with forearms is likely, wear gauntlet-style gloves. CEN standards EN 420 and EN 374 provide general requirements and lists of glove types. Recommended material: fluorinated rubber, nitril-, butyl-rubber, PVC, latex. Short-term contact: protection index 2, breakthrough time min. 30 min., long term - contact: protection index 2, breakthrough time min. 30 min. (EN 374-1). Do not wear rings, watches or other items that should retain the mixture on the skin.

Note: The selection of a specific glove for a particular application and duration of use in a workplace should also take into account all relevant workplace factors such as, but not limited to: Other chemicals which may be handled, physical requirements (cut/puncture protection, dexterity, thermal protection), potential body reactions to glove materials, as well as the instructions/specifications provided by the glove supplier. Inspect and immediately replace

------------------------------	-------------	----------	-----	----------	------

worn or damaged gloves.

c) Respiratory protection:

Not usually required under appropriate ventilation or exhaustion at the workplace. Avoid vapours / aerosols inhalation.

d) Thermal hazards:

No such risk when normally used.

Environmental exposure controls:

Comply with applicable environmental regulations limiting discharge to air, water and soil. Protect the environment by applying appropriate control measures to prevent or limit emissions. All storage and manipulation areas have to be equipped for the sanitation of possible leakage. See information in sections 6 and 12.

### SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

#### 9.1 Information on basic physical and chemical properties

Properties	value	method / condition
Appearance:	very viscous liquid / paste on a carrier	20°C
Colour:	yellow	-
Odour:	weak, non-specific	-
Odour threshold:	information not available	-
pH:	information not available	-
Melting point/freezing point:	information not available	-
Initial boiling point and boiling range:	information not available	-
Flash point:	cca. 200°C	-
Evaporation rate:	information not available	-
Flammability (solid, gas)	information not available	-
Upper/lower flammability or explosive limits:	information not available	-
Vapour pressure:	information not available	-
Vapour density:	information not available	-
Relative density:	0,90 – 0,915 g/cm <sup>3</sup> (glue)	20°C
Solubility/ies:	insoluble in water	water, 20°C
Partition coefficient: n-octanol/water:	information not available	-
Auto-ignition temperature:	information not available	-
Decomposition temperature:	information not available	-
Viscosity:	35 000 mPa.s (glue)	60°C
Explosive properties:	not explosive	-
Oxidising properties:	no oxidative properties	-

#### 9.2 Other information

-	-	-
---	---	---

### SECTION 10: STABILITY AND REACTIVITY

#### 10.1 Reactivity

Not reactive under normal conditions of storage and use.

#### 10.2 Chemical stability

# SAFETY DATA SHEET

according Regulation EC No. 1907/2006 (REACH), Regulation EC No. 1272/2008 (CLP)  
and Commission Regulation EU No. 2015/830

## ARBOBAND

Page:  
- 6/10 -

Date of compilation/revision	04.01. 2018	Version:	1.1	Replace:	-1.0
------------------------------	-------------	----------	-----	----------	------

	Mixture is chemically stable under normal conditions of storage and use. Overheating may cause thermal decomposition.
<b>10.3</b>	<b>Possibility of hazardous reactions</b> Hazardous exothermic reactions possible with strong oxidative compounds.
<b>10.4</b>	<b>Conditions to avoid</b> Stable under normal conditions. Keep away from direct sunlight, heat sources and ignition sources.
<b>10.5</b>	<b>Incompatible materials</b> None known.
<b>10.6</b>	<b>Hazardous decomposition products</b> Material does not decompose at ambient temperatures. Incomplete combustion and thermolysis may produce toxic, irritating and flammable decomposition products (such as carbon monoxide, carbon dioxide, sooth, aldehydes and other products of organic compounds decomposition).

### SECTION 11: TOXICOLOGICAL INFORMATION

<b>11.1</b>	<b>Information on toxicological effects</b> No adverse health effects are expected under normal conditions of use.
a)	<i>Acute toxicity</i> Based on available data, the classification criteria are not met. No toxicology data for the mixture. Based on the composition the mixture has low acute toxicity - no adverse health effects are expected under normal conditions of use. Ingestion of large amount may lead to stomachache, vomiting, diarrhea or other gastrointestinal problems.
b)	<i>Skin corrosion/irritation</i> Based on available data, the classification criteria are not met. Prolonged or repeated skin contact may cause removal of natural fat from the skin resulting and mild irritation. Removal of adhered product from the skin can cause hair removal. However, these effects are not reasons for classification.
c)	<i>Serious eye damage/irritation</i> Based on available data, the classification criteria are not met. Direct contact with eye can cause mild and transient irritation.. However, these effects are not reasons for classification.
d)	<i>Respiratory or skin sensitisation</i> Based on available data, the classification criteria are not met. Compounds have no sensitizing potential.
e)	<i>Germ cell mutagenicity</i> Based on available data, the classification criteria are not met. Compounds have no potential for mutagenicity.
f)	<i>Carcinogenicity</i> Based on available data, the classification criteria are not met. Compounds have no potential for carcinogenicity.
g)	<i>Reproductive toxicity</i> Based on available data, the classification criteria are not met. Compounds have no potential for reproductive toxicity.
h)	<i>STOT-single exposure</i> Based on available data, the classification criteria are not met.
i)	<i>STOT-repeated exposure</i> Based on available data, the classification criteria are not met. Based on composition and applicable amounts, not expected to cause specific damage from prolonged or repeated exposure upon normal conditions of use.
j)	<i>Aspiration hazard</i> Based on available data, the classification criteria are not met.

### SECTION 12: ECOLOGICAL INFORMATION

The mixture is not classified as hazardous for the environment.

<b>12.1</b>	<b>Toxicity</b> Not measured for the mixture. Based on the composition the mixture is not classified as hazardous for the environment. No adverse effects are expected under normal condition of use.
<b>12.2</b>	<b>Persistence and degradability</b>

### SECTION 16: OTHER INFORMATION

a) *Changes made to the previous version of the safety data sheet*

Actualization of relevant legislation in the Section 15.

b) *Key or legend to abbreviations and acronyms used in the safety data sheet*

Exp. lim.	Exposure limit
NPEL	The highest permissible exposure limit ( <i>Slovak Republic</i> )
PEL	Permissible exposure limit (short-term) ( <i>Czech Republic</i> )
NPEL-P	The highest permissible exposure limit (long-term) ( <i>Czech Republic</i> )
OEL	Occupational exposure limit
ACGIH	American Conference of Industrial Hygienists
PBT	Substances persistent, bioaccumulative and toxic
vPvB	Substances very persistent and very bioaccumulative
VOC	Volatile organic compound
DNEL	Derived No Effect Level
PNEC	Predicted No Effect Concentration
LD50	Median lethal Dose
LC50	Median lethal concentration
EC50	Half maximal effective concentration
IC50	Half maximal inhibitory concentration
ADR	European Agreement concerning the International Carriage of Dangerous Goods by Road
RID	International Rule for Transport of Dangerous Substances by Railway
IMDG	International Maritime Dangerous Goods Code
ICAO	International Civil Aviation Organization
IATA	International Air Transport Association

c) *Key literature references and sources for data*

Original composition from the manufacturer and Safety data sheets of used compounds.

d) *Methods of evaluating information used for the purpose of classification*

The mixture was classified by expert judgment and conventional calculations methods in accordance with the Regulation EC No. 1272/2008 (CLP).

e) *Full wording of used Hazard Statements (H-phrases)*

not used

f) *Advice on any training appropriate for workers*

Not applicable for consumer. Before handling, storing or using the present substance for the first time, employees must be informed - common occupational safety training. SAFETY DATA SHEET should always be available at hand.

g) *Other information*

This Safety Data Sheet is compiled in accordance with the Regulation EC No. 1907/2006 (REACH), Regulation EC No. 1272/2008 (CLP) and Commission Regulation EU No. 2015/830; and contains information on safety use, occupational health protection, and environmental protection. The information contained herein is given in good faith and is accurate to the best of knowledge at the date indicated above. This particular information apply on the product as supplied and may not be valid in mixtures with other substances. If used for other purposes as identified in this SDS, the distributor is not liable for any damage.

The information given herein in no way dispenses the user from knowing and applying all provisions regulating his activity. The user bears sole liability for the precautions required when using the product. The regulatory texts indicated herein are intended to aid the user to fulfill his obligations. This list is not to be considered complete and exhaustive. It is the user's responsibility to ensure that he is subject to no other obligations than those mentioned.

Compiled: PharmDr. Vladimír Vég, PHARMIS. [www.pharmis.cz](http://www.pharmis.cz)
